West Slope Casa

**Building Substance Use Disorder Treatment Capacity in Rural and Frontier Colorado – Grant
Program Application** **West Slope Casa reference #1287-2**

(House Bill 19-1287)

1. Overview and Timeline

1.1 About House Bill 19-1287

This document will provide guidance to the Managed Service Organizations (MSO) on the grant application and contracting process supported by funds appropriated through House Bill 19-1287. These funds are intended to increase substance use disorder capacity and services in rural and frontier communities and may include capital investment.

Eligible applicants include local governments (including Indian tribal reservation), municipalities, counties, schools, law enforcement agencies, and primary care or substance use disorder treatment providers) within or outside of the managed service organization's network of providers, may be eligible to apply for this grant program to increase substance use disorder treatment services and capacity in rural or frontier counties.

1.2 Background and Goals

Overdose deaths in Colorado have nearly tripled since 1999, led by a fivefold increase in opioid related deaths, surpassing other causes such as traffic accidents and guns (Colorado Health Institute, Feb. 2018). Access to treatment, particularly medication assisted treatment (MAT), saves lives; yet barriers to access remain. According to the 2017 Colorado Health Access Survey, more than 67,000 Coloradans needed treatment for drug or alcohol use but did not receive it.

Colorado has expanded the substance use disorder treatment benefit under the State Medicaid plan, but gaps in services still exist, particularly in rural and frontier communities. Even though a service is covered, it does not mean there is adequate capacity, nor does it mean that all communities have the services that are needed.

In May 2019, Governor Jared Polis signed House Bill 19-1287 which created a grant program that appropriated funds to the Office of Behavioral Health (OBH) to increase substance use disorder capacity and services in rural and frontier communities through the MSO. Each MSO area that consists of at least fifty percent rural or frontier counties shall receive an equal proportion of the annual grant program funds to disburse through local grants. The grants may be used to support building a continuum of services, including, but not limited to, medical or clinical detoxification, residential treatment, intensive outpatient treatment, and capital investment.

West Slope Casa seeks to contract with local governments, municipalities, counties, schools, law enforcement agencies, and primary care or substance use disorder treatment providers within or outside of the managed service organization's network of providers to receive grant funds to increase substance use disorder treatment services and capacity.
